The new version of the program for water balance and performance indicators calculation, using "bottom - up" approach, CalcuLEAKator4.0 is set for free download.

What's new in CalcuLEAKator 4.0:

- Added Apparent Losses Index (ALI) (similar as ILI for Real losses)
- Added Unavoidable Background Leakages (UBL) Indicator,
- Added value of Reported and Unreported leaks,
- Bugs fixed,

CalcuLEAKator 4.0 can be free downloaded [here >>](#)
