WATER LOSS DETECTIVES

NO. 5+ MARCH 2013

NEW WEB SITE FOR THE WATER LOSS COMMUNITY

www.waterloss.com.ba is the new website created, at September 2012, by Djevad Kaldžo, NRW expert from Bosnia and Herzegovina, who is also the site administrator. The site is engaged with all aspects in relation to loss reduction and there are many useful information such as the one about real losses (Classification, Measurement, Determination, Sound Leak Detection and pressure management), Water Balance methodology (IWA recommendations, Basic elements, Performance

Water Loss Detectives magazine nb.5 was published. This magazine is publishing in Romania (publisher is Aquateam S.A - Timisoara) and it is intended for all those which are working on Water Loss reduction projects. In new issue there are many interesting papers including information about this web site (waterloss.com.ba). Water Loss Detectives can be downloaded [here](#).
